The Philippines

Tanzania

Chile

Brazil

## Foreword

The SPRING admission committee has completed the process of selecting the candidates for our two-year Master SPRING Program. The results are listed below.

Please refrain from asking about the reasons for rejection; due to limited resources, we will not be able to respond to each request individually!

### 1. Reject

We regret to inform you that it was not possible to grant you admission to the program because you do not fulfil the admission requirements.

The reasons for this are stated in the table below. Either your application was incomplete when the committee held their meeting in May 2026, you do not fulfil SPRING requirements (e.g. insufficient grade; no spatial planning experience) or your Master's Entrance Qualification (*Masterzugangsberechtigung* - MZB) could not be granted by TU Dortmund University.

Please do not take this decision as a judgement of your professional abilities. We thank you once again for your interest in SPRING and wish you every success in your future endeavours.

APPLICATION ID	Reject: <i>Master's entrance qualification not met*</i>	<i>SPRING requirements not met</i>	<i>Application incomplete</i>

### 2. Admission

We will contact all candidates not listed in this document separately via email and provide you with further information and instructions.
